TV Lift Wifi Setup Guide

This Wifi Setup Guide is only for Wifi-Enabled Touchstone Home Products TV Lift. TV Lifts that are Wifi-Enabled will have the following style wired controller.

Touchstone Home Products Wifi-Enabled TV Lifts are powered by TuyaSmart. This document is a step-by-step guide for connecting your TV Lift to your home network and operating the TV Lift through the TuyaSmart app.

Setting Up Tuya Smart App and Account

<p>1. On your mobile device, download the Tuya Smart App from the appropriate app store or click the QR Code provided to download the app.</p>	 <p>The TuyaSmart logo, which is an orange circle with a white 't' and a signal icon, and a QR code to the right.</p>
<p>2. Once the TuyaSmart App is installed, click on the app icon to open the app and create a new account.</p>	 <p>A screenshot of the TuyaSmart app's registration screen. It shows a back arrow, the title 'Register', a dropdown menu for 'United States of America', an email input field with 'support@thpus.com', a red 'Get Verification Code' button, and a checkbox for 'I Agree User Agreement and Privacy Policy'. A keyboard is visible at the bottom.</p>

Setting Up Tuya Smart App and Account- cont

<p>3. Once a new user name has been created, you will be sent a Verification Code. Enter the Verification Code.</p>	
<p>4. Setup account password.</p>	

Adding TV Lift To Tuya Smart App – Bluetooth

<p>1. Make sure that BLUETOOTH is enabled on your smart device.</p>	
<p>2. Open the Tuya Smart app. Once in the Tuya Smart app, the TV Lift “Touchstone” device will pop-up under “Devices to be added”. Click the ADD button to add the device.</p>	
<p>3. On the Add Device screen, the Touchstone TV Lift will appear. Click the + button to start pairing the lift to the Tuya Smart app.</p>	

Adding TV Lift To Tuya Smart App – Bluetooth – cont

<p>4. Select your router SSID and enter your router password and click NEXT once complete.</p> <p>IMPORTANT: The 2.4GHz band on your wifi router must be enabled in order to connect the TV Lift to your network.</p> <p>IMPORTANT: You may need to disable the 5GHz band on your wifi router to connect the TV Lift to your network if it does not successfully connect the first time. Please see your router’s user manual for instructions on disabling the 5GHz wifi band. The 5Ghz band can be re-enabled after pairing of the TV Lift is complete.</p>	
<p>5. Once you have entered your router SSID and password, the TV Lift will be added to your router and the Tuya Smart app.</p>	
<p>6. The TV Lift has now been added to the app. Click DONE when complete. The TV Lift is able to be controlled via the Tuya Smart app.</p> <p><i>NOTE: TV Lift can only be paired to one Tuya Smart account at a time. To pair to another Tuya Smart account, unpair the TV Lift from the first Tuya account.</i></p>	

Using the Tuya Smart App and Controlling Your TV Lift

1. To control the TV Lift via a mobile device, launch the TuyaSmart App and click on your Touchstone TV Lift.

2..After selecting the Touchstone TV Lift, you can now control the TV Lift through the Tuya Smart app.

TV Lift Controls

	<p>UP: Moves the lift to the highest memory set point (1/S1). If no memory point is set for 1/S1, the lift will move to its highest point (55.1 or 70.8).</p>
	<p>STOP: Stops the lift motion.</p>
	<p>DOWN: Moves the lift to the lowest set point (2/S2). If no memory is set for 2/S2, the lift will move to its lowest position (28.1 or 33.1).</p>
	<p>S1: Highest memory setting. Lift will move to the memory setting that corresponds to 1 on the wired controller.</p>
	<p>S2: Lowest memory setting. Lift will move to the memory setting that corresponds to 2 on the wired controller.</p>
	<p>Lift Unlocked: Lift is unlocked and can be controlled with the wifi app, wired, or wireless remote. Lift can only be UNLOCKED by the wifi app.</p>
	<p>Lift Locked: Lift is locked. If selected, lift will be LOCKED and cannot be controlled with the wifi app, wired, or wireless remote. LOC will flash on the wired controller when in LOCKED mode.</p>
	<p>Height %: Percentage that the lift is extended.</p>

Alexa and Google Assistant Compatibility

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
